### Checkpoint 3 18-06-2023

This sprint I have worked on the public and private branches and separated them by showing your private branches when you log in. I think I communicated well with my teammates and updated them when I ... [Read more](#)

Has caught up with work after the issue with the python script and efficiently finished the private/public branch functionality

Very professional and active during meetings. Good researcher during the whole project. Also very nice implementation of making private branch selection.

communicate well as usual

### Checkpoint 2 Sprint D peer review 06-06-2023

I am happy with what I have done although I would have preferred to not have the python script take so much time and in the end to find a different solution all altogether.

Was busy researching a lot and was occupied by that. Did his job and has mentioned what he would do. Also worked on improving his part and kept communicating. Maybe should have given up on the origina... [Read more](#)

He regularly updated us with the progress of his research document. He is also the one who worked on other documents the most, which really helped me in Sprint D when I was a scrum master.

Did very good research regarding our project and was very eager to help anyone still in need of assistance.

communicate well, although research about python script cant be done

Great work this sprint! I think you performed very well and put in a good amount of effort into your tasks and features. It is always good to see you are interacting with the team. I also like that you update the team with the status of your tasks! Keep it up! [Read less](#)

**Checkpoint 1** **Sprint C Peer review** 11-05-2023 

  I think that I worked and done my part on the project group, however I think since I could have reached out and ask my teammates about the status of the group and plan more meetings with them since I ... [Read more](#)

  good communicator.

  Radu was a very good scrum master and a good and helpfull teammate even though sometimes it was hard for him to assert himself in the team.

  Made the login and was pretty much the best looking part of the program. has been very communicative

  Working together this sprint was a pleasure, and we achieved remarkable efficiency. Your collaborative nature and communication skills fostered a supportive environment, promoting open communication and idea sharing within the team. Your work ethic and attention to detail consistently delivered high-quality results this sprint. To conclude, I am very satisfied with your development so far during this project and this sprint. Keep up the good work! [Read less](#)
